MEMORANDUM FOR THE RECORD

SUBJECT: Coordination of Regulatory Issuances

X1 1. On 27 February 1970, [ ] and I met with [ ]  
[ ] on the subject of long delays in coordination of regulatory issuances. 25X1  
We reviewed with him the time period since we last discussed the subject  
with Chief, OPSER (then [ ] newly on-board 25X1  
present). We indicated, using the authentication and coordination status  
reports dated 26 February 1970, that there had in fact been no real improve-  
ment or change in the situation. We also cited a recent experience of the  
Travel Policy Committee in finding its agreed papers subsequently bogged  
down in [ ] office as being particularly distressing. We again  
pointed out that [ ] contribution, when received, was useful but  
suggested that the Agency over-all could not afford to have a single  
individual determine its priorities. Further, we pointed out that we  
intended to now initiate a revision in our practice of not printing Head-  
quarters regulations until [ ] are authenticated. 25X1  
We noted that we had adopted this practice of holding action since it  
avoided the confusion which resulted when previously CS-coordinated  
[ ] came back with recommended substantive changes.

X1 2. [ ] expressed surprise at the extent of the problem  
and undertook to look into it and attempt to effect a change. He took  
copies of the 26 February status reports. He asked that we send to him  
copies of future periodic status reports prepared by Regulations Control  
Branch.
